TOTAL COUNTY
DEBTS LISTED
AT \$763,109.

Three of Coffee counties neighbors chalked up greater debts for the year ended September 30, 1958 than Coffee county. Out of the State's 67 counties, 24 exceeded the Coffee county debt. Last year, only two neighboring counties owed more and only 22 counties in the state were more heavily in debt.

The figures for the statement are contained in the consolidated statement of county indebtedness, revenues, and expenditures for the year ended September 30, 1958, recently released by the State Department of Examiners of Public Accounts.

Coffee county has an indebtedness of \$763,109.01, an increase of \$30,616.45 over the same date one year previous. Adjoining counties having a larger debt are Dale, \$805,471.83, a reduction of almost \$80,000 in one year; Geneva, \$1,147,000, a whopping increase of well over \$100,000 in one year; and Pike, a \$101,000 increase.

Debts of other nearby counties include Covington, \$161,664.73; Crenshaw, \$2,807,941; Houston, \$408,918.53. The last three counties showed an indebtedness less than Coffee, but the Covington county figures were up over \$92,000 from last year.

Coffee county's debt consists of warrants and claims, \$731,000, and other indebtedness of \$32,069.01. The first item is interest bearing. There is no bonded indebtedness.

Crenshaw county is the only neighboring county with no bonded indebtedness and no warrants and claims outstanding.

While three neighboring counties had debts exceeding that of Coffee county, only two counties had revenues less than Coffee county.

Coffee county had a revenue of \$844,471.15, an increase of \$57, over the previous year. Crenshaw, \$815,273.32; and Geneva, \$334,651.93, had less revenue than Coffee. Other counties had revenues as follows: Covington, \$655,966.15; Dale, \$695,304.47; Houston, \$1,047,941.01; and Pike, \$589,500.28. Each county showed an increase in revenue over the previous year.

Two of the seven counties under study show a decrease in total expenditures for the year ending Sept. 30, 1958. They are Coffee, and Dale counties.

Coffee county showed the greatest decrease in expenditures—a big \$122,435.70 less than the previous year. Dale county had an expenditure of almost \$30,000 less than the year before. The other counties increased their expenditures from \$4,000 to \$227,000 during the year.

Only four counties in the entire state showed no indebtedness—bonded, warrants and claims, temporary loans, or other. They are Bibb, Henry, Randolph, and Shelby counties.

Wages and salaries are bound to rise, following the pattern of everything—probably 20 percent higher by the late 60's—most people will be able to afford more things.

This means a continuation of inflation at about the same rate as in the past decade. Savings, pensions, etc., will shrink in terms of what they will buy.

Unions will be affected by the growth of white collar workers, specialists or experts in various fields. Unions will find it harder to organize effectively. Union leaders are already foreseeing the trend.

More women will join the ranks of workers in the 60's. They've got to work for the growing economy requires that they do work.

Now 60 percent of women working outside the home are married and run households. The proportion will rise, especially women in the 45 to 54 age group who have raised their children. 45 percent of the women of middle age will be working by the late 60's.

BOOM FORECAST BY MAGAZINE DURING 1960

Washington, D. C. — Business will boom in the 60's, according to a report from the publisher of the magazine, "The Business Outlook," which is published by the National Industrial Conference Board, 171 High St., New York, N. Y. 10038.

The business boom will flow from population growth, plus rising productivity which will increase the output per man-hour, plus higher incomes, plus the pull of people who want more and better things for themselves, plus the almost shifting of business patterns, Kiplinger says.

Companies will expand, despite painful and expensive growth. They must add capacity, products, diversity and new outlets as a hedge against the rapid changes that would drive them down and possibly out.

Changes in Stores
More chains, larger stores and many stores taking on additional lines is the revolutionary picture for merchandising in the 60's. The food store will become a general store, with other things than groceries.

The end of the trend is not yet for the super-super market. Pre-packaged and frozen foods, requiring more complex equipment, fancier fixtures will all bring on new kinds of warehousing needs.

Also there's automation—this is rising fast. It means more mechanical equipment and system to replace muscle power. It's a must for domestic business, and it's a must for our foreign trade. Automation is the lower-revolution jobs such as foreman and supervising jobs. And, surprisingly, the lower-revolution jobs will be filled by college grads.

As business gets to be in big units, it will need more far flung, more responsibility will rest on the individual. Business processes themselves are being upgraded and the men who run them. Automation adds to the need for the trained and the educated in key spots.

Besides his widow, Mr. Grant is survived by one son, Arthur Joe Grant, Jr., of Montgomery, Ala., and one daughter, Mrs. Mary B. Evans, both of Dothan, and four brothers, Adam S. Grant Jr., of Dothan, Charles Grant of Jacksonville, Fla., and Porter Grant of Washington, D. C.

Funeral services were held last Wednesday at the First Methodist Church, Montgomery, with the Rev. Joel McDavid, pastor, officiating. Burial was in City cemetery, Dothan with military honors.

NEW MARKETS FOR PEANUTS BEING SOUGHT

Alabama's 18,000 peanut growers, as part of their campaign to develop new markets in preparation for their 1959 crop, recently told their story to manufacturers in to national conventions at the same time and launched a personal appearance tour by a home economist aimed at teaching the nation's housewives how to use more peanut butter in hot weather meals.

The activities were part of the summer market promotion drive of the Alabama Peanut Producers Association.

Peanut butter manufacturers and other representatives of the national peanut industry present at the Atlanta convention of the Southeastern Peanut Association, commended the Alabama growers for an "outstanding" job in helping to raise per capita consumption of peanut butter. The convention heard an Alabama national and recipe materials which is provided to newspapers, magazines, home demonstration agents and other food specialists, and saw a color film produced by the Association which is being distributed nationally to television stations.

Although most Alabama growers are currently being consumed as peanut butter, the growers are aggressively exploring other marketing opportunities, according to H. H. Knowles, of Headland, Association president.

The growers' association is also working closely with several processors on new peanut-salt techniques which could open an entirely new market, Mr. Knowles said.

The personal appearance tour demonstrating uses for peanut butter in summer meals was conducted by Margaret Deane, Murphy, director of the Association's test kitchens.

PIGGLY WIGGLY
SUPER MARKET
DRAWS CROWDS

The new Piggly Wiggly super market opening was described as "better than expected" as the store during its first week.

The opening attracted shoppers from a wider-than-usual trade area and proved to be an increased incentive for out-of-town shoppers to come to Elba.

W. T. Benson, of Benson Wholesale Co., owner of the Piggly Wiggly franchise here, expressed great confidence in the future of Elba and said that the reaction to the new super market justified his confidence.

NOT SO PAINFUL

(An Editorial)
One of the first signs of a city's progress is a shortage of housing. That's a growing pain that is not so painful when viewed in its true perspective.

That was a highlight of the membership meeting last week of the Elba Chamber of Commerce. Dozier Roberts, chairman of the Housing committee, reported on the difficulty of finding housing for families who want to move to Elba.

But it's not so painful when it is considered that a house spells a good investment for anyone who occupies or to rent. Organization of the First Federal Savings and Loan Association of Elba is being rushed to meet this need in Elba's progress and as a good investment.

The opening of the New Wigly Super Market Wednesday of last week met with a response which showed it will be an added attraction for drawing customers to Elba from the trade area. For when out-of-town people come to Elba to buy at one store, it means just that many more potential customers for all stores.

Through the Keyhole

BY MRS. ROBERT CANNON

THE MANY FRIENDS who attended the lovely tea honoring Madelyn Branson Miller Monday afternoon found the Sewell home a popular place. Ora Sewell and Maxine Prescott were hostesses between the hours of four and six on July twenty-th.

On the dining table a color scheme of pink and silver was

vening dresses.

In the den Grace Waters registered the guests and invited them to stop and chat in the spacious sun porch, which was especially pretty with gaily colored zinnias complementing the sea green decor. Have always loved Ora's parties because one can settle back in Al's easy chair on the porch and watch all the goings on! Maxine showed the gifts which were displayed in the bedrooms. For her shower, Madelyn chose to wear a white linen choker cut on Grecian lines with blue shoes and a corsage of blue carnations.

Madelyn and Johnny are pictured here just before the first guests arrived and it is our contention that they are a most handsome couple. We wish them great happiness.

IF YOU SAW a fine young man in town last Tuesday, who carried himself with the unimpeachable air of the military school coach, it was Philip Sellers of Sarasota, Florida. Or, we should say, Lieutenant Sellers, as Philip was graduated from Virginia Military Institute in June, and received his commission. Philip was here on a brief visit to Ora and Al Sewells, who carried him to Fort Benning, Ga., where he will officially begin his service for Uncle Sam.

WEARING Turquoise silk or-

gandy she was as lively as the Chinese lanterns that swayed in the late evening breeze and cast a flickering light up into the tall pines. Hurricane lanterns led the way up the winding drive and to the back yard where tables were set for the 20 invited guests.

Lanterns and clusters of balloons festooned the patio and graceful stairway. On the large buffet table a magnificent arrangement of red zinnias provided a background for the white cake. And large silver trays and bowls held the bountiful dinner.

The occasion was Henriette Dorsey's sixteenth birthday and this party was one much looked forward to by everyone concerned. And, of course, Henriette proved herself to be a most gracious host.

OFF in a huddle of suitcases and hatboxes was Rhetta Ann Crook when she left for Hattiesburg, Miss., and the campus of Mississippi Southern.

This week high school musicians are gathering there for the annual Music Camp and Rhetta Ann is attending in her capacity as Majorette. Kathy Davis, daughter of Rev. and Mrs. Fred Davis of Opp, is also there so the two are planning many good times. We are expecting Rhetta Ann to lead the Elba High Band this football season with great vivacity.

PENALTY RATES ON COTTON IN 1959 ARE SET

Marketing quota penalty rates on "excess" cotton of the 1959 crops of upland and extra long staple cotton were announced today by the U. S. Department of Agriculture. The penalty rate on upland cotton is 19 1/2 cents per pound, and the penalty rate on extra long staple cotton is 40 1/2 cents per pound. Controlling legislation directs that the marketing quota penalty rate for upland cotton be

50 percent of the parity price per pound of cotton effective as of June 15 of the calendar year in which the cotton is produced. The parity price for upland cotton as of June 15, 1959, was 38.13 cents per pound. Legislation also provides that the penalty rate on extra long staple cotton be the higher of 50 percent of the parity price or 50 percent of the support price for this type of cotton as of June 15, 1959, was \$1.00 cents per pound. Since 50 percent of the parity price is higher than 50 percent of the support price, the applicable penalty rate for the 1959 crop extra long staple cotton is 40 1/2 cents per pound (which is 50 percent of the June 15 parity price).

Grover's approved marketing quotas for the 1959 crops of upland and extra long staple cotton in referendums on Dec. 15, 1958.

When cotton marketing quo-

tas are in effect, a farmer who does not comply with the cotton acreage allotment, established for the kind of cotton grown on his farm is subject to penalty on his farm marketing the cotton crop from the farm is also ineligible for price support under Commodity Credit Corporation programs. Each type of cotton is treated independently. Upland cotton cannot be substituted for extra long staple cotton or vice versa.

Hunting and Fishing Rulings Announced

Montgomery—Alabama's Advisory Board of Conservation today set hunting, trapping and fishing seasons, bag and creel limits for the coming year, according to an announcement by the State Game Department of Conservation.

Major changes from last year's seasons were setting the closing date for the deer season on January 1 rather than January 4; opening deer hunting throughout Hale, Perry, Bibb, Jefferson and Covington counties rather than in portions of those counties; opening the quail season on November 26 rather than November 20; separate squirrel seasons for north and south Alabama, and opening of the rabbit season November 26 rather than October 1 in counties north of Jefferson county.

is the size of a Government Post Card, by actual measurement. To mail this card to 1,000 families would cost \$30.00 for the card and postage alone. To print a message on the back would cost, on the average, \$7.50 per thousand. Addressing would cost another \$5.00 per thousand.

That's a total of \$42.50 to send a postcard advertisement to a thousand families.

Yet this space in The Elba Clipper costs a regular advertiser only \$6.30. It reaches almost twice as many families. That advertiser's money helps The Elba Clipper to serve a subscriber at only a fraction of the cost of a subscription if the newspaper had no advertising.

To sum up: The advertisement reaches more people at one-seventh the cost and the advertiser serves every subscriber because he enables The Elba Clipper to supply the news at less cost.

Thanks, Folks,

for the WONDERFUL WELCOME!

We really had a ball! Honestly, we were floored by the rousing reception folks gave our opening last week. We're mighty grateful, too! So many of you were kind enough to volunteer such nice compliments that we can't help but be pleased and proud. We're going to do our very best to continue pleasing you.

Our opening specials were sold out to the bare shelves, but we've lined up a new supply of top quality foods at extra low prices that we know you'll like. We're all set for another big week of exceptional food values, so be sure to shop ----
